

10 & UNDER TENNIS LINES

Har-Tru has developed the first set of temporary and permanent lines specifically for Har-Tru Courts. The temporary lines can be installed by one person in 5-7 minutes. The permanent lines are colored dark green to blend into the Har-Tru surface.

36' Temporary Lines - TAPQS36 - \$89.95

Our 36' temporary lines come in red to match the red ball used on 36' courts and to show up sharply against the Har-Tru green. The system comes in two pieces, an outside rectangle and an inside I. The pieces are attached together with Velcro and secured to the court surfaces with just 12 nails. The nails ARE NOT inserted into the permanent white lines. The grommets are secured a few inches beyond the white lines. Nails are included with the lines. Lines are 1" wide.

60' Temporary Lines - TAPQA60 - \$89.95

These lines are identical to the 36' lines except they are colored orange to match the orange ball used in 60' tennis. 10 nails (included) secure these to the court. The pieces are attached together with Velcro and secured to the court surfaces. The nails ARE NOT inserted into the permanent white lines. The grommets are secured a few inches beyond the white lines. All intersections are stitched together. Lines are 1 1/2" wide.

36' & 60' Permanent Lines - TAPQSGP60 - \$127.95

The 60' lines are made from our Herringbone tape but are colored green. These are designed for courts that are regularly used for both full size and 60' play. The green color helps the 60' layout blend into the court when the regulation size court is in use. These lines are nailed into the court surface similar to standard court lines. Each box comes with 180' of tape, enough for one 60' court or one 36' court. Nails ARE NOT included.

10 & Under Line Reels - TAPQSREL - \$10.00

The reel is used for easy storage of the 10 & Under lines.

10 & Under Line Rings - TAPQSRNG - \$1.00

The rings are used to connect the 36' lines together to easily store on the reel.
